Pushka VPN Privacy Policy

Legal Entity: Aleksandrov Aleksei Sergeevich, IP

1. General Provisions

Pushka VPN, operated by Aleksandrov Aleksei Sergeevich, IP, is a free VPN service committed to protecting your privacy. This Privacy Policy explains what information we may collect when you use Pushka VPN services, how we use it, how it is stored and protected, and what information we explicitly do not collect. We collect only the minimum data required to operate and improve the service.

2. What We Do NOT Log (Strict No-Logs Policy)

Pushka VPN does not collect, store, or log any of the following data:

- your browsing history or accessed domains;
- DNS queries;
- your real IP address;
- destination or outgoing IP addresses;
- connection timestamps (start/end) or session duration;
- traffic volume per session;
- network metadata or identifiers linking user → session → activity;
- any content of your internet traffic.

Pushka VPN cannot associate specific user accounts with specific online activity.

3. Personal Data We May Collect

To operate the service, we may request only your email address, which is required for account creation and support.

This information is used for:

- account setup and authentication;
- abuse prevention and customer support.

Pushka VPN is provided free of charge. We do not request, collect, or process any payment information.

We do not sell, rent, or share your personal information with third parties for marketing or advertising purposes.

4. Anonymous Usage Statistics and Diagnostics (Optional)

Pushka VPN may collect anonymized and aggregated data, such as:

- server performance metrics (load, uptime, connection success rates);
- overall traffic volumes (not tied to users);
- crash logs and diagnostic reports.

These data:

- contain no IP addresses, DNS logs, online activity, or session details;
- cannot identify a user;
- are collected only with explicit user consent (opt-in).

You may disable diagnostic data collection in the application settings.

5. Data Storage and Security

All personal data is stored securely with technical, physical, and administrative safeguards.

Even if VPN servers or infrastructure are seized, Pushka VPN has no logs that could correlate IP addresses, timestamps, or online activity to any user.

6. User Rights

You have the right to:

- request access to the personal data we store;
- request correction of inaccurate personal data;
- request deletion of your personal data (with possible account termination);
- request restriction of processing;
- withdraw consent for diagnostic data collection;
- file a complaint with the relevant data protection authority.

We will process all requests according to applicable data protection laws.

7. Contact Information

For questions, data requests, or privacy-related inquiries, contact the operator:
